A DULL AND HEAVY MARKET

Little Trading Done, and Prices Sag Downward Again.

Slight Gains in the Railway List Shaded With the Course of the Day -The Steel Issues Quiet Pending the Settlement of the Strike.

NEW YORK, July 34 - Prices declined in today's extremely dull stock market rot in connection with any definite news of an unfavorable character, but apparently because of the uncertainty as to whether the preliminary agreement reach-ed between the President of the Amaigamated Union and the representatives of the United States Steel Corporation would be formally ratified by the union.

In addition to the uncertainty in this respect the corn market had a hardening tendency, and notwithstanding that the weather in the Central West was reported perfect from an agricultural point of view, Chicago continued to send gleomy advices quite contradictory to the exhibit of the weather map.

The market opened dull and irregular, and so continued throughout the morn-There were only a few exceptions to the generally sagging tendency prices, comparatively firm features of the rallway list being Illinois Central, Louisville and Nashville, Norfolk and Western, and St. Paul. These stocks showed oc-casionally a fair degree of support, but the slight gains made in each case were

Apart from the returns of railway traffor the month of June and for the completed fiscal year, there was nothing of any interest bearing upon the movements in the railway list. The Union Pacific Company made a particularly noteworthy snowing. Aside from the railway list there was no considerable activity except in the United States Steel issues, which, for the reason already noted, were comparatively heavy. Sagar Rethining was fairly steacy, apparently on the belief that the company would benefit materially through the extension and the development of its business in the West Indies. completed fiscal year, there was nothing

The so-called specialties were generally firm, with noteworthy advances appearsing in Amalgamated Copper and Pacific Mail. The local traction stocks were again almost wholly neglected.

London was an unimportant factor in

again almost wholly neglected.

London was an unimportant factor in the dealings, the irregular prices changes furnished from that quarter being unattended by considerable dealings here for foreign account. The money market continued extremely easy throughout the day and sterling exchange was a shade firmer. The general trading was, in all respects of the character epitomized as a midsummer market, being almost wholly for professional account.

Extreme duliness was the only characteristic of the stock market yesterday. At no time during the session was there may suggestion of animation and at several periods it almost seemed that the exchange had decided to take a holiday for the remainder of the session. The range of prices sagged off samewhat, but in such a dull market the small fluctuations cannot be considered significant. The professionals were responsible for the little business that did occur, taking small profits and making a few new ventures. The public was represented by a few hundred shares of purchasing orders. The market was not a surprise to conservative people. After the sharp advance of the previous week and the higher prices of Monday, on the announcement of rains in the West and of the proba-

bility that the strike would be settled yesterday, it was not in the least unusual that there should be a reaction. Neither was it unusual that the market should be dull while awaiting the conclusive announcement of the ending of the strike and while still very uncertain as to the extent of the crop damage. Indeed, it seems probable that the general market will be dull and protessional for some days, if not weeks, in the future. The extent of the corn crop atmage will not days, if not weeks, in the future. The extent of the corn crop namage will not be learned for some time, nothing very definite can be known until the Government amouncement on August 10 and even at that time the uncertainty will not be all over. Many careful people believe, however, that stocks are more of a purchase on the reactions than a sale on the rallies. They believe that the next important movement will be upward, even if it is delayed for some time.

The news yesterday was almost nothing London cia decic, atcrice was easy. The street during the morning felt a trifle loss confident that the steel strike would be anded at once, but there seemed to be little reason for its fears. Nothing definite had been heard when the market closed, of course. The despatches from the West leave no doubt that the drought has been broken in the corn belt, and the weekly Government crop report yesterday corroborated the earlier unofficial news. Nearly all the crop despatches make mention of the probability that the spring wheat crop has not been very seriously damaged.

The grangers all opened up well and all sagged off from a fraction to a point or more from the opening level before the close. In no case was the movement big enough to attract attention, except, perhaps, in that of the Atchison common. Into stock was above 76 on Monday at one time and it went to 72 and a fraction yesterday. The extent of the bulge in the stock on the good news from the companies for June, induced rather more realizing in it than in the other securities of the group.

of the group.

The statement of the St. Paul for the month of June and for the fiscal year ending June 30, like that of the Atchison for the same periods, is a most interesting one because of the present fixing of speculative attention on the grangers by the recent drought in the corn beit. It may be stated at once that the figures given to the public are entirely and finely satisfactory. Briefly speaking, the company in the past year, after more than usually heavy expenditures for betterments, carned its full fixed charges, its full 7 per cent on the preferred stock, and about 12 per cent on the month and for the year are as follows:

Month June— 1961, 1900, 1899 Number of miles, 6,542 6,997 6,154 Cross carmings... \$1,555,989 83,419,205 \$3,395,983 Operating exp... 2,427,808 2,444,186 2,205,457 Net carnings... \$1,128,181 \$074,619 \$1,139,523 July 1 to June 30— Gross carnings... \$42,360,012 \$41,884,602 \$38,310,632 Operating exp.... \$7,077,506 28,426,835 22,982,805

Not earn, 12 mo.\$14.74,500 \$15,865,54 \$14,347,706

Both the gross and the net earnings are larger than ever before. The gross earnings exceed those of last year by \$484,000 and the net earnings exceed those of 1859, the best previous year for net earnings, by \$43,000. It will be seen that there has been some curtailment of the operating expenses of the company during the past year. This does not mean in the least that the company has been niggardly with its expenditures. As a matter of fact, the ratio of operation to gross earnings was more than 65 per cent, a most generous allowance, in excess of any year except 1900, when almost 65 per cent was expended. In other recent years the ratio has been nearer 65 per cent. The company will put into its surplus fund another generous amount as a result of the years business. It will be seen that with earnings equal to nearly 12 per cent yearly on the common stock during the past three years, and with its grain business largely confined to wheat and very little depending on corn, the outlook for this system. Net earn, 12 mo. \$14,701,500 \$13,460,854 \$14,347,706 years, and with its grain business largely confined to wheat and very little depend-ing on corn, the outlook for this system during the coming year is a very rosy one. The wheat crop is not in danger. It will be one of the largest on record.

The Wabash statement for the year has The Wabash statement for the year has been waited for with much interest, owing to the activity of the securities of the company in recent months and their much better position in the market. The statement shows a rapisity growing business, but it may be doubted if it offers anything in itself that would warrant the much higher prices of the securities. It is only on the supposition that the Wabash is to be made an important part of a greater system that the advance can be justified, but this probability being acknowledged, the earnings of the company attent a new significance. The figures are as follows:

Net earn 12 ms. \$4,781,384 \$4,490,573 \$2,982,590. The net earnings are \$4,781,384, an increase of \$285,090. Surplus after fixed charges will be about \$768,090. This would give to the "A" bonds 6 per cent interest, or \$279,090, and leave for the "B" bonds \$498,090, or very nearly 2 per cent. The total interest on the "B" bonds, before any dividend could be paid on the preferred stock would be \$1,590,090, or more than \$1,090,090 in excess of the earnings of last year. The Wabash securities have many friends, however, The letting of the contracts for the work of building the system into Pittsburg looks so much like the realization of this plan that the street is beginning to believe that it will be carried out. The importance to the Wabash of a line through to Pittsburg has been pointed out in this column here-tofore.

The Steel securities held their own fairly well. Sentlment regarding both the preferred and the con.mos is favorable in the street. Steel preferred is the 7 per cent preferred stock of the greatest steel company, the greatest company of any kind the world ever saw, and controlled by the most successful financier of modern times. The common stock is paying 4 per cent and, even although it may be entirely water, the outlook is very fair for the dividend to continue. People who are not reckless in their speculations by any means express the be-

There has been good buying of Norfolk and Westerr and Chesapeake and Ohio recently, and hints of "developments" have been heard in the street, but they nnot be traced to any very solid found-

**atts opened firm, but turned easier in sympathy with corn. On the decline Southwestern houses came into the market as heavy buyers. Shippers were also good buyers. Shorts covered and a good advance followed. Cash sales were 250,600 bushels. Country acceptances are fair.

Provisions were helped by the better tone to the hog market and the advance in corn. Under an increased demand, packers buying the nearby and commission houses the January deliveries, this sion houses the January deliveries, this market ruled higher, especially for lard, and held the improvement at the close. The cash trade here is improving and is particularly good with the Western pack-ers. Provisions are strongly held.

BALTIMORE PRICE CURRENT.

Market Quotations in Full. BALTIMORE, July 30.-Following are

Trade was very, quiet and very little wheat changed hands. July sold at 704c carly and August ruled about 704670%c. September was offered at 71%c early, but no trade in this option resulted. Private cables steady and acceptances in some castellar attracting full houses than was

Corn-Stock in elevators, 343.975 bus. Receipts of Southern were very light, comprising only a few hundred bushels of both colors, which sold at 60 cents for white and 58 cents for yellow affoat. The demand was fair and the limited offerings were quickly disposed of. The market ruled about steady. Cob easy at \$2.7092.75 per bbi for carload lots prime yellow on spot.

Western corn was dull and firm. No trade was attempted, either in cash or options, and the price was nominal as a consequence. July early was 505554c, but this was much a question of need, as very little corn is available at the moment and the seller is in control. Private cables dull. Market closed strong; spot July, 57%c bid, August, 57%c bid, September, 58%c. Settling price, mixed, 5%c, steiner mixed, 5%c.

July, 574c bid; August, 574c bid; September, 834c. Settling price, mixed, 55c; steamer mixed, 55c.

Western Late Corn Improved and Eastern Yields Promising. The weekly summary of the weather at

crop conditions of the country, issued by

the Weather Bureau yesterday, is as fol

"Intense heat prevailed during the greater part of the week throughout the central valleys, but the temperatures during the last three days were more moderate, Good rains have fallen over a large part of the drought area in the Mississippi and upper Missouri valleys, but drought conlitions have become more serious in the Ohio Valley and Tennessee, where the week has been rainless, except in a few localities. In the Atlantic Coast districts the weather conditions have been generally favorable, except over portions of now needed. The conditions were also

favorable on the Pacific Coast. Recent rains have improved late corn in portions of Nebraska, Kansas, Oklama, and Missouri, but the early cros was practically ruined before the rain came. In lowa the crop has sustained les injury than in the before-mentioned CHICAGO, July 30.-Wheat had a fair States, and the rainfall has been copious and well distributed. In the great corn States east of the Mississippi River, except over northern Illinois, drought and being 140 londs and 60 today. Local traders were short and covered. Commission houses were fair buyers. The in a critical condition, In Michigan and in a critical condition.

mission houses were fair buyers. The streagth in coarse grains helped wheat. Primary receipts were heavy; clearances 59,000 bushels. Bradstreet's world': visible increased 3,600,000 bushels. Weather conditions in the Northwest were greatly improved.

There was easiness in corn early on further liquidation. The offerings were absorbed by local traders, who were disposed to work for a reaction, until a 2-cent rally followed. Late in the day there was some commission house buying, but the volume of outside business was much smaller than of late. Naturally there is a great deal of controversy as to now much benefit has been derived from recent rains. It will take some time better a definite conclusion can be Mercella and stream of the spring wheat region, although the first same and New English and New Engl

by rains in Michigan. Reports of prema-ture ripening continue from the upper Missouri Valley. A light crop is indi-cated in the Middle Atlantic States.

"The condition of cotton over the great-er part of the cotton belt is improved, good growth and clern fields being gen-erally reported. In Missouri, Arkansas, Tennessee, and certal Texas, however, the crop continues to need rain, and shed-ding and blooming at top in these States are extensively reported.

"In the Ohio Valley and Tennessee, to-bacco continues to suffer from drought, but in Kertucky and Tennessee has with-stood the unfavorable conditions well. In New England and the Middle and South but in Kertucky and Tennessee has with-stood the unfavorable conditions well. In New England and the Middle and South Atlantic States the crop has made good growth. Cutting and curing continue in the Carolinas under favorable conditions. "The apple crop in the central valleys has been further injured by drought and heat, and a very light crop is indicated in the Middle Atlantic States and New Eng-land."

HARD LUCK OF STAGE FOLK.

Stranded at Glen Echo and Claim Their Manager Has Deserted, In almost the condition that humorists panies a number of theatrical people are living in the deserted summer cottages near Glen Echo Park. By doing vaudeville turns in the cafe there they earn enough to live. They are members of Haverly's Phantasma Troupe, which proved a losing venture at the popular re-sort. Without enough money to get back to Broadway they are waiting for some relief. Incidentally a number of them are quite angry with their former manager, Jack Haverly, who they complain deserted the company under guise of going to New York to secure funds to take the troupe back to the metropolis. Haverly

has been away nearly two weeks and the say they have not received a cent and that recently the colonel has begun to dispense with even the formality of answering letters they have written him. In the meantime the chorus girls Cash on hand and in band BALTIMORE, July 20.—Following are today's quotations in the local wholesule provision and grain markets:

Wheat—Stock in elevators, 1.753,443 bus.

The market for Southern was about steady, compared with yesterday's close, although prices were somewhat lower than yesterday's transactions. Receipts 196% were much lighter and under a good destrict where the posed of. Sales were recorded on grade 197% at 72c for No. 2 red, and 65c for rejected. Sample 196% lots, as to quality and condition, sold at 196% gost, 70%; Foreign cables were only a 186% fraction lower, while speculative on this 186% fraction lower, while speculative on this 20% fraction lower, while speculative on this 20% fraction lower, while speculative on this 30% fraction lower while speculative on this 30% fraction lower while speculative on this 30% fraction lower while specu and the actors are experiencing to the Bonds and mortgages (first lien on real

cables steady and acceptances in some instances quite large. Market closed firmer: spot July, 71½c bld, 71½c asked; August, 71½c bld, 71½c asked; September, 72c bld, 71½c asked; September, 72c bld, 71½c asked; September, 72c bld, 71½c asked; October, 73½c bld, 8ales, 1,500 July, 70½c; 1,000 August, 70½c; two cars fresh spot, 71½c. TO SECURE PURER MILK.

The Health Department, which recently began a campaign against persons al eged to be guilty of selling milk below the standard fixed by law, is being carty-five persons were in the Police Court

from 55 to 510 each
Yesterday the Acting Prosecuting Attorney, A. Leftwich Sinclair, issued warrants for the arrest of more than a score
of persons on a like charge.
The informations were sworn to by Dr.
R. L. Lynch, acting chemist for the District of Columbia. Looking for William Waldron.

The police would like to find William Waldron, aged thirty-one years, with light ing from his home, 615 Miller Court northling from his home, was assure court north-west. Friends of Waldron fear his mind may be somewhat affected, possibly by the heat. They have given the police a description of him, which has been sent to the various stations and elsewhere. Waldron his been missing two days.
